

Attract Hummingbirds

Step 1 Offer food

Hummingbirds need to eat half their weight in sugar everyday, so if you offer them plenty of food you are bound to attract them!

Step 2 Offer water

They are avid bathers! Offer shallow baths, and even sprinklers or misters near your garden.

Step 3 Offer shelter

Feeders and fountains should be located within 8 feet of bushy and shady shrubs.

ANNUALS

AGASTACHE
CANNA
FUCHSIA
LANTANA
MORNING GLORY
PETUNIA
SALVIA
