

ZZ Plant

Light

Bright to low. Keep out of direct sunlight

Temperature

Normal room temperature, 60-75F

Water

Water thoroughly, then let soil dry out between waterings to prevent rot. Very forgiving if you forget to water!

Humidity

Average indoor humidity.

Repotting

Slow grower, so need for repotting can be rare. If repotting, use a pot only two inches wider than the current one being used.
