# INDOOR SUNLIGHT LEVELS

## BRIGHT LIGHT WITH SOME DIRECT SUN

- Sunny south- or west-facing window that receives direct light throughout the day
- Minimum of 5-6 hours of sunlight each day

## BRIGHT INDIRECT LIGHT

- Sunlight from an east-facing window receiving morning sun
- Sunlight from a south- or west-facing window covered with sheer curtains

## MEDIUM LIGHT

- Sunlight about five feet from a south- or west-facing window in the interior of a room
- Well-lit areas in the interior areas of a home

## LOW LIGHT

- Minimal levels of light due to shaded windows, light from north-facing windows, and interior walls
- Low light plants are tolerant of low light, but will have more growth in medium light

### HIGH LIGHT PLANTS

Areca Palm  
Anthurium  
Bromeliad  
Cacti & Succulents  
Citrus  
Cordyline  
Culinary Herbs
